

Over £3m raised during Lextons June auction with a success rate of 93% achieved!

Lextons June sale was another huge success with final selling prices exceeding reserve amounts and expectation by some considerable distance.

Auctioneer Simon Caplin:

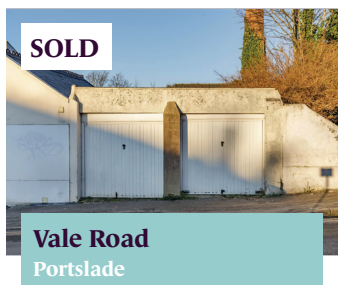

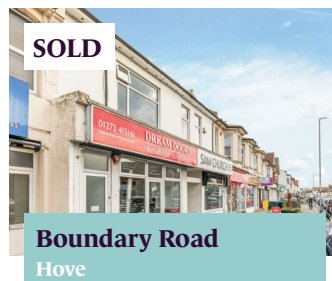

“ I have no doubt whatsoever that the success of today’s auction was assisted significantly by the fact it was held in a packed room with all buyers in attendance witnessing a competitive and highly charged bidding environment, something that cannot happen with online only auctions and resulted in us selling 13 of the 14 lots available to the delight of our clients, many of whom were in attendance.”
